# CLOUD FEST 2019

..........................................................................

Announcing Cloud Fest'19 by GDG Kolkata powered by Developer Student's Club - NSEC.

We are bringing to you the first Solution Design Thinking Workshop of Kolkata! Learn how to recognize problems and to build solutions for them in a strategic manner. We'll then learn how to deploy your solutions using the Google Cloud Platform, and talk about the Google Launchpad Accelerator program for your start-up ideas!

Then after our live session, you will have free access to more labs you can finish at home. Complete all labs in the quest and earn a Google-hosted badge for your online profile, and additional 30 days access to the training platform to complete any labs you want.

Bring a notebook, pen, laptop and charger (PC, Mac or Chromebook)! The labs will run on all of the latest versions of the popular browsers. For the best experience, make sure your laptop has Firefox or Chrome installed. Don't forget to carry your charger.

This event is being organized by GDG Kolkata with support from Developer Student's Club - NSEC in association with Dept. of Information Technology, NSEC.

**Coordinated by:**
Prof. Sourav Mitra,
Dept. of Information Technology.
